Japan and the Global Automotive Industry Koichi Shimokawa 2010-06-03 The Japanese automotive industry enjoyed spectacular success in the 1980s. This was largely due to the so-called 'Lean Production System' - the combination of an efficient production system, an effective supplier system, and a product development system. In the 1990s the industry fell on hard times because of the Japanese asset price bubble and extreme currency appreciation. In this book, eminent industry specialist Koichi Shimokawa draws on his thirty years of research and fieldwork with Japanese and American firms, to show how the Japanese automotive industry has managed to recover from this difficult period. He shows how firms like Toyota were able to transfer Japanese systems to overseas plants and how they have changed in order to compete in increasingly globalized markets. In addition, the book also addresses the two major challenges to the current industry model: the rise of China and the environmental and energy supply situation.

Irishness and Womanhood in Nineteenth-century British Writing Thomas J. Tracy 2009 Using Lady Morgan's The Wild Irish Girl as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's Castle Rackrent through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

For Whom the Book Tolls Laura Gail Black 2020-09-08 In this cozy series debut from Laura Gail Black, Jenna Quinn finds her uncle murdered in his antique bookstore, and Jenna--his primary beneficiary--becomes the prime suspect. Trouble follows Jenna Quinn wherever she goes. Fleeing some unsavory doings in her hometown of Charlotte, Jenna accepts her uncle's gracious invitation to stay with him in small-town Hokes Folly, NC. In exchange, she'll help him out in his antiquarian bookstore. But soon after she arrives, Jenna finds her uncle's body crumpled at the base of the staircase between his apartment and the bookstore. Before the tragedy even sinks in, Jenna learns that she's inherited almost everything her uncle owned: the store and apartment, as well as his not-so-meager savings and the payout from a life insurance policy...which adds up to more than a million dollars. This is all news to Jenna--bad news, once the police get wind of her windfall. An ill wind, indeed, as a second murder cements Jenna's status as the prime suspect in both deaths. Jenna can hit the road again, taking her chances that she can elude trouble along the way. Or she can stick it out in Hokes Folly, take over the bookstore, and try to sleuth out her uncle's killer. On the one hand, she's made some wonderful new friends, and she feels she can thrive in the genial small-town environment. On the other hand, trouble knows her address--and so does the killer, who is determined to write the final page of Jenna's story.

Homer Simpson Ponders Politics Joseph J. Foy 2013-05-01 It is often said that the poet Homer "educated" ancient Greece. Joseph J. Foy and Timothy M. Dale have assembled a team of notable scholars who argue, quite persuasively, that Homer Simpson and his ilk are educating America and offering insights into the social order and the human condition. Following Homer Simpson Goes to Washington (winner of the John G. Cawelti Award for Best Textbook or Primer on American and Popular Culture) and Homer Simpson Marches on Washington,

this exceptional volume reveals how books like J. R. R. Tolkien's *The Hobbit* and J. K. Rowling's *Harry Potter*, movies like *Avatar* and *Star Wars*, and television shows like *The Office* and *Firefly* define Americans' perceptions of society. The authors expand the discussion to explore the ways in which political theories play out in popular culture. *Homer Simpson Ponders Politics* includes a foreword by fantasy author Margaret Weis (coauthor/creator of the *Dragonlance* novels and game world) and is divided according to eras and themes in political thought: The first section explores civic virtue, applying the work of Plato and Aristotle to modern media. Part 2 draws on the philosophy of Hobbes, Locke, Rousseau, and Smith as a framework for understanding the role of the state. Part 3 explores the work of theorists such as Kant and Marx, and the final section investigates the ways in which movies and newer forms of electronic media either support or challenge the underlying assumptions of the democratic order. The result is an engaging read for undergraduate students as well as anyone interested in popular culture.

The Origin of Competitive Strength Akira Kawahara 2012-12-06 When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst."

Global Status Report on Road Safety 2018 World Health Organization 2019-01-10 The Global Status Report on Road Safety 2018, launched by WHO in December 2018, highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5-29 years. The burden is disproportionately borne by pedestrians, cyclists and motorcyclists, in particular those living in developing countries. The report suggests that the price paid for mobility is too high, especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives.

The Beer Bus to Totality Bradley Bartz 2017-08-21 The Beer Bus to Totality by Bradley L. Bartz Hi. This first page will set the stage for this Beer Bus to Totality book. All efforts are being given to pick the absolute best pictures of the journey, the people, modes of transportation, libations, falling water and rifles. 3pm on Friday August 18, 2017 the Bartz family Toyota Sienna van pulled up to home of mom and dad, Albert and Diane Bartz to join Brad, Tomoko and Brad Jr. to head to Amtrak Union Station in downtown Los Angeles. You know, that feeling of getting out of dodge was taking place and the crew was restless. On the agenda was a rail adventure from Los Angeles, California to Buffalo, New York. The Southwest Chief left Union Station at 6:10 pm. We left ourselves plenty of time. Or... at least we thought we did. Quickly it became clear that the 110 Harbor Freeway was closed and Brad took surface streets to Alameda Blvd deep in LA. The streets of LA should have been filmed as parts are known by the driver to be a little bit of hell here on earth. Namely, never drive thru skid-row in your shiny new car. It's a buzz kill. The Beer Bus To Totality is celebrating a full solar eclipse and 2 minutes and 40 seconds of totality. From the St. Louis, Missouri Schlafly Brewery loaded 75 hardy party ready eclipse chasers for a 1-hour ride to Bloomsdale, Missouri. The ride was filled with anxiety. Carmageddon was happening in Oregon for eclipse escapaders. The TV was filled with wall to wall coverage of the upcoming eclipse, especially the night before at the Union Station Hotel in St. Louis, Missouri. (look down and to left, what is that?) Let me take you back a few steps. Planning for this total solar eclipse was epic. Amtrak was alerted and its marketing engine roared with special trips and sponsored events. Schlafly was on its game and I still bet I was first in line to get tickets! Only they will know... The Union Hotel marketing team and St. Louis Enterprise were taken aback by the eclipse crowds. The TV weathermen were absolutely besides themselves and wrong on most counts! Nothing was better than feeling a 15-degree temperature drop that coincided with the clouds dissipating for a full view of totality. The anticipation of this journey culminated with whoops and hollers and smiles abound. I hope you enjoy this book as much as we do. The Beer Bus to Totality: Dew Drop Inn for A Full Eclipse of the Sun 3 Billion Times and Man Just Guesses. August 23, 2017, St. Louis, Missouri (SPX) - 3 billion times and man still does not have a clue. The weathermen were astonished the clouds dissipated during the loss of temperature of the eclipse. NASA is all google eyes about the data sets that they will process. I will continue to study images and

look for shadow bands and the shadow race. Thanks to Tom, Steve, Lo, Caiti and the great teams of Schlafly Beer and Dew Drop Inn. Special planning and care was given to make this event spectacular. The outdoor bar games were a smash hit, especially man-sized Jenga and the loud crashes of defeat. My mom would like a Jumbo Jenga Set for Xmas! The 2 minutes and 40 seconds of totality were only briefly interrupted by clouds during last 30 seconds. A loud yelp and screams of the crowd pleased all. The DJI Mavic Pro footage captured the eclipse shadow as it approached from the west. At 400 feet, the steady camera did not blink as day became night. The truck stop lit up first which was just magical, then you can see trucks and cars and the highway pull over. At totality the drone dutifully pointed east and stood at attention while its operator screamed "oh bloody hell!" as I looked up to see the corona blasting out of the moon blocked sun. The partial eclipse started at 11:50 am and each pac-man design effort marched on. The Cannon Rebel T6 and the 400mm lens were operated by Tomoko and Marie Bartz on a tripod with a cover shade. Many took a look. We were so happy to share. 1

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: " Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions " (Amy Chua, author of Battle Hymn of the Tiger Mother). If you ' re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley ' s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You ' ll be laughing and learning at the same time.
