**Profiting with Iron Condor Options Michael Benklifa 2011-01-19** In a straightforward approach, Hanania Benklifa provides readers the practical knowledge needed to trade options conservatively in *Profiting with Iron Condor Options: Strategies from the Frontline for Trading in Up or Down Markets*. The objectives are simple: make 2%-4% a month staying in the market as little as possible. Market experts use option condors to consistently earn monthly returns while trading conservatively and staying in the market as little as possible. Benklifa—who manages \$10+ million in condor trades each month—shows you exactly how to run these trades and earn these returns, delivering all the details you need to master every nuance of this remarkable strategy. Benklifa shares option condors examples using market realities, not oversimplified abstractions. You'll learn how to handle real-life market dynamics that can dramatically impact results, including rising and falling volatility, changing bid-ask spreads, and distorted call parity. You'll learn how to profit in the sideways markets where condor options are most widely used—and also in extreme-trending markets that offer their own surprising opportunities. Traders who focus on a specific type of trade have a history of outperforming stock pickers and directional investors. This book will give you that deep and usable level of knowledge about one of today's most well-proven strategies: option condors.

**Love by Night SK Williams 2021-02-02** More of a story than a collection of poetry, *Love by Night* will whisk you away from your world and into the dreamy romantic night. *Love by Night* begins with anxious hesitation and nervous attraction, grows into tender affection, blossoms into passionate love, delves deep into whimsical dreams, and finally builds an image of an idyllic future together, as the reader develops along with the two characters of this poetic story. Written as a conversation between two points of view in constant change and flux with each other, this book invites the reader into the conversation about the love that connects one person to another, but also all of us to each other. Through this written testament to the emotional journeys books can take us on, S. K. Williams breaks down stereotypes, sexism, relationship roles, and brings awareness to mental health, grief, anxiety, depression, how to move forward, how to love in a healthy way, and, most of all, how to love yourself when it feels impossible.

**Make Room for TV Lynn Spigel 2013-11-26** Between 1948 and 1955, nearly two-thirds of all American families bought a television set—and a revolution in social life and popular culture was launched. In this fascinating book, Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium: how, over the course of a single decade, television became an intimate part of everyday life. What did Americans expect from it? What effects did the new daily ritual of watching television have on children? Was television welcomed as an unprecedented "window on the world," or as a "one-eyed monster" that would disrupt households and corrupt children? Drawing on an ambitious array of unconventional sources, from sitcom scripts to articles and advertisements in women's magazines, Spigel offers the fullest available account of the popular response to television in the postwar years. She chronicles the role of television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women's role within the household to new uses of domestic space. The arrival of television did more than turn the living room into a private theater: it offered a national stage on which to play out and resolve conflicts about the way Americans should live. Spigel chronicles this lively and contentious debate as it took place in the popular media. Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated—from how programs should be watched to where the set was placed to whether Mom, Dad, or kids should control the dial. *Make Room for TV* combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America, offering a provocative glimpse of the way television became the mirror of so many of America's hopes and fears and dreams.

**Discovering the Word of Wisdom Jane Birch 2013-11-26** This book is a lively exploration of the amazing revelation known to Mormons as the "Word of Wisdom." It counsels us how and what we should eat to reach our highest potential, both physically and spiritually. New and surprising insights are presented through the perspective of what has been proven to be the healthiest human diet, a way of eating supported both by history and by science: a whole food, plant-based (WFPB) diet. WFPB vegetarian diets have been scientifically proven to both prevent and cure chronic disease, help you achieve your maximum physical potential, and make it easy to reach and maintain your ideal weight. In this book, you'll find the stories of dozens of people who are enjoying the blessings of following a Word of Wisdom diet, and you'll get concrete advice on how to get started! You will discover: What we should and should not eat to enjoy maximum physical health. How food is intimately connected to our spiritual well being. Why Latter-day Saints are succumbing to the same chronic diseases as the rest of the population, despite not smoking, drinking, or doing drugs. How the Word of Wisdom was designed specifically for our day. How you can receive the "hidden treasures" and other blessings promised in the Word of Wisdom. Why eating the foods God has ordained for our use is better not just for our bodies, but for the animals and for the earth. You may think you know what the Word of Wisdom says, but you'll be amazed at what you have missed. Learn why Mormons all over the world are "waking up" to the Word of Wisdom!

Going Home to the Fifties Bill Yenne 2002 With the postwar economic boom, a vast middle class emerged. Suburbs exploded across the country, and the new industrial complex cranked out cars, appliances, and home furnishings in record numbers. Here is an idealized neighborhood of the period, with schools, roads, and commuter trains to the homes, kitchens, and backyards -- all drawn from the fantasy worlds created by advertising. Color photos and illustrations are featured in this presentation of the ideal of 1950s suburban living. From houses to cars, to individual rooms and lawns, an entire industry was created to instruct a newly-created middle class on what ideal living should be.

Empire of the Air Tom Lewis 2021-09-15 Empire of the Air tells the story of three American visionaries—Lee de Forest, Edwin Howard Armstrong, and David Sarnoff—whose imagination and dreams turned a hobbyist's toy into radio, launching the modern communications age. Tom Lewis weaves the story of these men and their achievements into a richly detailed and moving narrative that spans the first half of the twentieth century, a time when the American romance with science and technology was at its peak. Empire of the Air is a tale of pioneers on the frontier of a new technology, of American entrepreneurial spirit, and of the tragic collision between inventor and corporation.

The Making of the English Middle Class Peter Earle 1989-01-01 This is the first major study of a neglected yet extremely significant subject: the London middle classes in the period between 1660 and 1730, a period in which they created a society and economy that can be seen with hindsight to have ushered in the modern world. Using a wealth of material from contemporary sources—including wills, business papers, inventories, marriage contracts, divorce hearings, and the writings of Daniel Defoe and Samuel Pepys—Peter Earle presents a fully rounded picture of the "middling sort of people," getting to the hearts of their lives as men and women struggling for success in the biggest, richest, and most middle-class city in contemporary Europe. He examines in fascinating and convincing detail the business life of Londoners, from apprenticeship through the problems and potential rewards of different occupational groups, going on to look at middle-class family, social, political and material life—from relationships with spouses, children, servants, and neighbors, to food and clothes and furniture, to sickness, death, and burial. Stimulating, scholarly, and constantly illuminating, this book is an important and impressive contribution to English social history.

Homemaking for the Apocalypse Jill E. Anderson 2021-04-22 In Homemaking for the Apocalypse, Jill E. Anderson interrogates patterns of Atomic Age conformity that controlled the domestic practices and private activities of Americans. Used as a way to promote security in a period rife with anxieties about nuclear annihilation and The Bomb, these narratives of domesticity were governed by ideals of compulsory normativity, and their circulation upheld the wholesale idealization of homemaking within a white, middle-class nuclear family and all that came along with it: unchecked reproduction, constant consumerism, and a general policing of practices deemed contradictory to normative American life. Homemaking for the apocalypse seeks out the disruptions to the domestic ideals found in memoirs, Civil Defense literature, the fallout shelter debate, horror films, comics, and science fiction, engaging in elements of horror in order to expose how closely domestic practices are tied to dread and anxiety. Homemaking for the Apocalypse offers a narrative of the Atomic Age that calls into question popular memory's acceptance of the conformity thesis and proposes new methods for critiquing the domestic imperative of the period by acknowledging its deep tie to horror.

100 Days of Sunlight Abbie Emmons 2019-08-07 When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. 100 Days of Sunlight is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

The Grand Domestic Revolution Dolores Hayden 1982-06-17 "This is a book that is full of things I have never seen before, and full of new things to say about things I thought I knew well. It is a book about houses and about culture and about how each affects the other, and it must stand as one of the major works on the history of modern housing." - Paul Goldberger, The New York Times Book Review Long before Betty Friedan wrote about "the problem that had no name" in The Feminine Mystique, a group of American feminists whose leaders included Melusina Fay Peirce, Mary Livermore, and Charlotte Perkins Gilman campaigned against women's isolation in the home and confinement to domestic life as the basic cause of their unequal position in society. The Grand Domestic Revolution reveals the innovative plans and visionary strategies of these persistent women, who developed the theory and practice of what Hayden calls "material feminism" in pursuit of economic independence and social equality. The material feminists' ambitious goals of socialized housework and child care meant revolutionizing the American home and creating community services. They raised fundamental questions about the relationship of men, women, and children in industrial society. Hayden analyzes the utopian and pragmatic sources of the feminists' programs for domestic reorganization and the conflicts over class, race, and gender they encountered. This history of a little-known intellectual tradition challenging patriarchal notions of "women's place" and "women's work" offers a new interpretation of the history of American feminism and a new interpretation of the history of American housing and urban design. Hayden shows how the material feminists' political ideology led them to design physical space to create housewives' cooperatives, kitchenless houses, day-care centers, public kitchens, and community dining halls. In their insistence that women be paid for domestic labor, the material feminists won the support of many suffragists and of novelists such as Edward Bellamy and William Dean Howells, who helped popularize their cause. Ebenezer Howard, Rudolph Schindler, and Lewis Mumford were among the many progressive architects and planners who promoted the reorganization of housing and neighborhoods around the needs of employed women. In reevaluating these early feminist plans for the environmental and economic transformation of American society and in recording the vigorous and many-sided arguments that evolved around the issues they raised, Hayden brings to light basic economic and spacial contradictions which outdated forms of housing and inadequate community services still create for American women and for their families.

Honey, I Love and Other Love Poems Eloise Greenfield 1986-05-23 An ALA Notable Children's Book HONEY, I LOVE and other love poems Ages 7 to 11 Love don't mean all that kissing like on television Love Means Daddy Saying keep your mama company till I get back And me doing it Sixteen poems tell of love and the simple joys of everyday life, seen through the eyes of a child: playing with a friend, skipping rope, riding on a train--or keeping Mama company till Daddy gets back. Each of these sixteen "love poems" is spoken straight from the heart of a child. Riding on a train, listening to music, playing with a friend...each poem elicits a new appreciation of the rich content of everyday life. And each poem is accompanied by a beautiful drawing, both portrait and panorama, that deepens the insights contained in the singing words. For the first time Eloise Greenfield and Diane and Leo Dillon have combined their rich talents to bring children a book that shows them

the joys that come from seeing with a poet's eyes--the eyes of love. Notable Children's Books of 1978 (ALA) A Reading Rainbow Selection Winner, 1990 Recognition of Merit Award (George C. Stone Center for Children's Books, Claremont, CA)

**American Prisoners of the Revolution** Danske Dandridge 1911 Liberty Street Sugar House was a tall, narrow building five stories in height, and with dismal underground dungeons. In this gloomy abode jail fever was ever present. In the hot weather of July, 1777, companies of twenty at a time would be sent out for half an hour's outing, in the court yard. Inside groups of six stood for ten minutes at a time at the windows for a breath of air.

**Creative Types** Tom Bissell 2021-12-14 From the best-selling coauthor of *The Disaster Artist* and "one of America's best and most interesting writers" (Stephen King), a new collection of stories that range from laugh-out-loud funny to disturbingly dark—unflinching portraits of women and men struggling to bridge the gap between art and life A young and ingratiating assistant to a movie star makes a blunder that puts his boss and a major studio at grave risk. A long-married couple hires an escort for a threesome in order to rejuvenate their relationship. An assistant at a prestigious literary journal reconnects with a middle school frenemy and finds that his carefully constructed world of refinement cannot protect him from his past. A Bush administration lawyer wakes up on an abandoned airplane, trapped in a nightmare of his own making. In these and other stories, Tom Bissell vividly renders the complex worlds of characters on the brink of artistic and personal crises—writers, video-game developers, actors, and other creative types who see things slightly differently from the rest of us. With its surreal, poignant, and sometimes squirm-inducing stories, *Creative Types* is a brilliant new offering from one the most versatile and talented writers working in America today.
