An Oresteia Aeschylus 2010-03-02 In this innovative rendition of The Oresteia, the poet, translator, and essayist Anne Carson combines

three different visions -- Aischylos' Agamemnon, Sophokles' Elektra, and Euripides' Orestes, giving birth to a wholly new experience of the classic Greek triumvirate of vengeance. Carson's accomplished rendering combines elements of contemporary vernacular with the traditional structures and rhetoric of Greek tragedy, opening up the plays to a modern audience. --from publisher description.

Insiders and Outsiders Francis B. Nyamnjoh 2013-07-04 This study of xenophobia and how it both exploits and excludes is an incisive commentary on a globalizing world and its consequences for ordinary people's lives. Using the examples of Sub-Saharan Africa's two most economically successful nations, it meticulously documents the fate of immigrants and the new politics of insiders and outsiders. As globalization becomes a palpable reality, citizenship, sociality and belonging are subjected to stresses to which few societies have devised a civil response beyond yet more controls.

Goodbye Homeboy Steve Mariotti 2019-08-06 One sunny afternoon in 1982, a young businessman experienced a terrifying mugging in New York City that shook him to his core. Tortured by nightmares about the teens who roughed him up, Steve Mariotti sought counseling. When his therapist suggested that he face his fears, Mariotti closed his small import-export business and became a teacher at the city's most notorious public school--Boys and Girls High in Bed-Stuy. Although his nightmares promptly ceased, Mariotti's out-of-control students rapidly drove him to despair. One day, Mariotti stepped out of the classroom so his students wouldn't see him cry. In a desperate move to save his job, he took off his watch and marched back in with an impromptu sales pitch for it. To his astonishment, his students were riveted. He was able to successfully lead a math lesson for the first time. Mariotti realized his students felt trapped in soul-crushing poverty. They saw zero connection between school and improving their lives. Whenever Mariotti connected their lessons to entrepreneurship, though, even his most disruptive students got excited about learning. School administrators disapproved of Mariotti discussing money in the classroom, however. He was repeatedly fired before receiving one last-ditch assignment: an offsite program for special-ed students expelled from the public schools for violent crimes. The success Mariotti had with these forgotten children—including coverage in the Daily News, The New York Times, and World News Tonight—inspired him to found the nonprofit Network for Teaching Entrepreneurship to bring entrepreneurship education to low-income youth. By turns tragic and hilarious, Goodbye Homeboy shares Mariotti's flaws and missteps as he connects deeply with his troubled students, and woos the most influential people in the world into helping them—saving himself in the process. Today, Mariotti is widely recognized as the world's leading advocate for entrepreneurship education. More than one million young people from Chicago to China have graduated from NFTE programs, and NFTE counts Sean Combs, Chelsea Clinton, Diana Davis Spencer, and many more business, entertainment, and community leaders among its staunchest supporters. As Goodbye Homeboy powerfully illustrates, a spark of hope really can empower us to overcome life's greatest hardships.

Towards an Entrepreneurial Culture for the Twenty-first Century International Labour Office 2006 In line with the World Declaration on Education for All and the Millennium Goal of halving poverty in the world by the year 2015, education is expected to serve not only the acquisition of academic knowledge but also the preparation of young people for life and work. Secondary education has to meet the challenge of providing skills for successfully dealing with economies and work patterns in transition and changing cultural values. Education that makes young people entrepreneurial in a broad sense would be part of this solution. This volume draws on various experiences in entrepreneurial education around the world. It aims to provoke discussion on such questions as: How can we harness the imagination and entrepreneurial talents of secondary students as assets for development? How should these talents be channelled? What are the contents, subjects, topics that support the entrepreneurial process? What is the best institutional framework for entrepreneurship education? What kind of teacher is needed? How do we systematically measure the performance of entrepreneurship education and training?

#fix Young America Young Entrepreneur Council 2012 Our government is being strangled by partisan politics, youth employment is at a 60-year low, and student loan debt has surpassed \$1 trillion—and yet young Americans are starting businesses in record numbers, all over the United States. If we want Millennials (and future generations) to survive and thrive in the new economy, then we need to funnel this entrepreneurial energy into something positive, or risk turning the Millennial generation into a lost generation. The solutions in this book represent the beginning of an important conversation about how to support and foster the real leaders of tomorrow. From policy ideas and educational programs, to private sector solutions and philanthropic activities, #FixYoungAmerica provides best practices and tangible solutions for solving the epidemic of youth unemployment—straight from the individuals and organizations that are already in the trenches, working to rebuild an entrepreneurial America right now.

An Introduction to Community Development Rhonda Phillips 2014-11-26 Beginning with the foundations of community development, An Introduction to Community Development offers a comprehensive and practical approach to planning for communities. Road-tested in the authors' own teaching, and through the training they provide for practicing planners, it enables students to begin making connections between academic study and practical know-how from both private and public sector contexts. An Introduction to Community Development shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes, encouraging students to ask: what is best practice when it comes to planning for communities, and how do we accurately measure the results of planning practice? This newly revised and updated edition includes: increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being and public health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available.

Putting the Young in Business OCSE = OECD. 2001 Policies and practices promoting youth entrepreneurship in Organisation for Economic Cooperation Development (OECD) member countries were reviewed. Special attention was paid to the following issues: youth unemployment; contrasting employment situations and policy approaches in individual OECD countries; a definition of self-employment; and the state of entrepreneurship and attitudes toward it in OECD countries. Emerging program approaches to youth entrepreneurship were examined. Special attention was paid to "best practice" examples and international youth business networks. The issues of teaching teachers, teaching entrepreneurship at all levels (primary, secondary, and tertiary), and entrepreneurship training were also discussed. It was concluded that although youth unemployment is a highly intractable problem affecting all OECD member countries, globalization and other factors are causing economic development strategies to become increasingly local and regional. It was further concluded that entrepreneurial activity is a complex process whose outcome depends on a number of factors that are either not economic or only tangentially economic. The following policy suggestions were offered: (1) the field must become more institutionalized; (2) more program evaluation is needed; (3) more cooperative connections with other schools are required; and (4) young entrepreneurs need more networks and support groups among themselves. (Twelve figures/tables/boxes are included. The bibliography lists 31 references.) (MN)

Teach to Work Patty Alper 2017-03-27 The United States is abundantly rich in adults with "know how." By connecting mentors -- educated adults with expertise and knowledge -- with mentees -- teens and young adults who lack motivation, experience, and role models in their lives -- we can begin to close this gap dramatically. We can prepare the next generation for the jobs of tomorrow by adding real-world, project based experience to their education. Teach to Work is a call to action for mentors currently sitting on the sidelines. Whether

you are a banker, lawyer, architect, accountant, engineer, IT specialist, or artist, you have the experience and skillset to become an ambassador of talent, grit, and transferable skills. The book provides a step-by-step guide to help professionals share their knowledge with the next generation of workers through this intergenerational experience. Based on Alper 's fifteen years of mentoring inner-city high-school students, Teach to Work proves how corporations, professionals, and boomers can have a significant impact on the professional future of America 's youth. Drawing from real-life stories and letters received from students, teachers, and fellow mentors describing pride of accomplishment, Alper helps professionals embark on this journey to transform lives, mentoring one student at a time.

Teaching the Entrepreneurial Mindset Across the University Lisa Bosman 2021-10-07 " It stretches no point to suggest that creativity, innovation and risk-taking will decide our future societal prosperity. We cannot spread those values too widely, so having taught engineering faculty in their first book, these authors now aim to boost the spirit across all disciplines. What a great success for all of us if they succeed. " – Mitchell E. Daniels, Jr., president of Purdue University and former governor of Indiana Despite the relevancy of the entrepreneurial mindset for all career paths, only a small percentage of the higher education student population takes part in entrepreneurially-minded learning opportunities. This gap can be attributed to several factors. From a program perspective, many degrees are already at credit capacity which allows limited room in the existing curriculum to add new courses. From a student perspective, entrepreneurship education is thus positioned as optional and requires extra time (and in some cases tuition) to do so. Finally, from an educator perspective, the majority of faculty members across the university have not been trained in entrepreneurship and may not know where to start. Teaching the Entrepreneurial Mindset Across the University: An Integrative Approach overcomes these challenges by providing higher education faculty with a toolkit, including tips and strategies, to integrate the entrepreneurial mindset into existing courses regardless of discipline. The book is broken into three core parts: Motivation: The importance of the entrepreneurial mindset for all students is established; Design: The Entrepreneurial Mindset Teaching Blueprint is introduced as a tool for integrating entrepreneurially-minded curricular learning experiences within existing courses; Application: Example entrepreneurially-minded curriculum from across the university are provided. By integrating the entrepreneurial mindset across the curriculum, students from all disciplinary backgrounds will be better prepared to enter the workforce, solve complex social issues, and leverage entrepreneurial thinking in their everyday lives. This book is meant for educators who want to make an impact and truly prepare graduates for the real world.
