The Pardoner's Tale Geoffrey Chaucer 1928

The Decameron Giovanni Boccaccio 2017-12-06 John Payne's translation of The Decameron was originally published in a private printing for The Villon Society, London in 1886. Comprised of 100 novellas told by ten men and women over a ten day journey fleeing plague-infested Florence, the Decameron is an allegorical work famous for its bawdy portrayals of everyday life, its searing wit and mockery, and its careful adherence to a framed structure. The word "decameron" is derived from the Greek and means "ten days". Boccaccio drew on many influences in writing the Decameron, and many writers, including Martin Luther, Chaucer, and Keats, later drew inspiration from the book. Giovanni Boccaccio (1313-1375) was an Italian writer and humanist, one of the founders of the Renaissance. He studied business but abandoned it eventually to pursue his literary interests. In 1350 Boccaccio met Francesco Petrarca (Petrarch) (1304-1374), one the most important figures in the beginnings of the Renaissance and Humanism.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

From Observables to Unobservables in Science and Philosophy 8. The Mad Lover About the Book: The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive. Letters to Alice Fay Weldon 2013-04-16 An aunt imparts wisdom to her teenage niece, inspired by the works of Jane Austen, in this novel from the Man Booker Prize-nominated author. Alice is an aspiring novelist with green hair and zero interest in reading Jane Austen for her college English class. However, her Aunt Fay, a novelist herself, isn't about to let Alice stick her nose up at Austen or other enduring authors. "You find her boring, petty and irrelevant, and, that as the world is in crisis, and the future catastrophic, you cannot imagine what purpose there can be in reading her," Fay writes her. "My dear pretty little Alice, now with black and green hair . . . How can I hope to explain Literature to you, with its capital 'L'?" Alternating between passages from Jane Austen's novels and accounts of her own career, Aunt Fay pays tribute to a great author, explores the craft of fiction, and charts her niece's development as a writer in this unique book that reveals how Austen—and great literature—is truly, wonderfully timeless.

It is written to be used in a course for future math teachers. It is open source, with low cost print editions and free electronic editions. This third edition brings improved exposition, a new section on trees, and a bunch of new and improved exercises.
