Meanwhile Elinor, always sensitive to social convention, is struggling to conceal her own romantic disappointments even from those closest to her. General George Washington Edward G. Lengel 2007-01-09 "The most comprehensive and authoritative study of Washington's military career ever written." –Joseph J. Ellis, author of His Excellency: George Washington Based largely on George Washington's personal papers, this engrossing book paints a vivid factual portrait of Washington the soldier. An expert in military history, Edward Lengel demonstrates the "secret" to Washington's excellence lay in his completeness, in how he united the military, political and personal skills necessary to lead a nation in war and peace. Despite being an "imperfect commander"—and at times even a tactically suspect one—Washington nevertheless possessed the required combination of vision, integrity, talents, and good fortune to lead America to victory in its war for independence. At once informative and engaging, and filled with some eye-opening revelations about Washington, the American Revolution, and the very nature of military command, General George Washington is a book that reintroduces readers to a figure many think they already know. "The book's balanced assessment of Washington is satisfying and thought-provoking. Lengel gives us a believable Washington . . . the most admired man of his generation by far." –The Washington Post Book World "A compelling picture of a man who was 'the archetypal American soldier' . . . The sum of his parts was the greatness of Washington." –The Boston Globe "[An] excellent book . . . fresh insights . . . If you have room on your bookshelf for only one book on the Revolution, this may be it." –The Washington Times

The Great Awakening Jonathan Edwards 2009 Interpreting the Great Awakening of the eighteenth century was in large part the work of Jonathan Edwards; whose writings on the subject defined the revival tradition in America. Moving from sensitive descriptions of "the Surprising work of God" in conversion to a consuming quest for the essence of true religion, and threading his way through mounting controversy over "errors in doctrine and disorders in practice," Edwards sought to locate an authentic core of evangelical experience, to define it in terms of biblical faith and psychological insight, and to defend it

against both overheated zealous and rationalistic critics. The tracts that unfold his thoughts, presented (with related correspondence) for the first time in accurate critical texts, document a movement so significant for the American character that it has been called "our national conversion." In a carefully researched introduction, C.C. Goen identifies the "Arminian threat" to which the Northampton pastor responded at the onset of the Awakening, and traces Edwards' understanding of vital religion as it developed in the ambiguous context of revivalism. Mr. Goen's study also illuminates little-known aspects of A Faithful Narrative and describes the haphazard way in which that important work reached its eager audience. C.C. Goen, author of *Revivalism and Separatism in New England, 1740-1800* (1962), is professor of church history at the Wesley Theological Seminary in Washington, D.C.

The Most Dangerous Game Richard Connell 2020-04-21 From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned island was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill (The Telegraph). "[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted." —Criterion

The Talented Tenth W E B Du Bois 2020-10-13 Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training we shall develop money-makers but not necessarily men; if we make technical skill the object of education we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.
