Securing Outer Space Natalie Bormann 2009-01-30 The challenges that space poses for political theory are profound. Yet until now, the exploration and utilization of space has generally reflected - but not challenged - the political patterns and impulses which characterized twentieth-century politics and International Relations. This edited volume analyses a number of controversial policies, and contentious strategies which have promoted space activities under the rubric of exploration and innovation, militarization and weaponization, colonization and commercialization. It places these policies and strategies in broader theoretical perspective in two key ways. Firstly, it engages in a reading of the discourses of space activities: exposing their meaning-producing practices; uncovering the narratives which convey certain space strategies as desirable, inevitable and seamless. Secondly, the essays suggest ways of understanding, and critically engaging with, the effects of particular space policies. The essays here seek to 'bring back space' into the realm of International Relations discourse, from which it has been largely removed, marginalized and silenced. The various chapters do this by highlighting how activities in outer space are always connected to earth-bound practices and performances of the every day. *Securing Outer Space* will be of great interest to students of space power, critical security studies and IR theory.

Guillaume Faye and the Battle of Europe Michael O'Meara 2013-01 Europe is at war and does not know it. She is overrun by invaders from the Global South, who seek to replace those who have inhabited her lands for at least the last 30,000 years. She is subject to an American overlord, whose world system dictates her de-Europeanization and globalization. She is mismanaged and betrayed by EU technocrats, corrupt politicians, and plutocratic elites. Without a revolutionary mobilization in her defense, the thousand-year-old civilization that grew out of the medieval *Respublica Christiana* and that we today associate with 'Europe' - along with the unique genetic heritage of her peoples - will forever cease to exist. Guillaume Faye - doctorate from one of France's most prestigious *Ecoles*, social philosopher, author of numerous books and articles - is the Cassandra warning Europeans of their approaching extinction, and the need to prepare for the impending Battle of Europe. Michael O'Meara, Ph.D., studied social theory at the *Ecoles des Hautes Etudes en Sciences Sociales*, and modern European history at the University of California. He is the author of *New Culture, New Right: Anti-Liberalism in Postmodern Europe* (2004)."

Seventeen-year-old Ellie Spencer is just like any other teenager at her boarding school. She hangs out with her best friend Kevin, she obsesses over Mark, a cute and mysterious bad boy, and her biggest worry is her paper deadline. But then everything changes. The news headlines are all abuzz about a local string of serial killings that all share the same morbid trademark: the victims were discovered with their eyes missing. Then a beautiful yet eerie woman enters Ellie's circle of friends and develops an unhealthy fascination with Kevin, and a crazed old man grabs Ellie in a public square and shoves a tattered Bible into her hands, exclaiming, "You need it. It will save your soul." Soon, Ellie finds herself plunged into a haunting world of vengeful fairies, Maori mythology, romance, betrayal, and an epic battle for immortality.

The Gospel of Philip Jean-Yves Leloup 2004-08-16 A new translation and analysis of one of the most controversial of the apocryphal gospels • Emphasizes an initiatic marriage between the male and female principles as the heart of the Christian mystery • Bears witness to the physical relationship shared by Jesus and Mary Magdalene • Translated from the Coptic and analyzed by the author of the bestselling *The Gospel of Mary Magdalene* (over 90,000 sold) The mainstream position of the Christian church on sexuality was perhaps best summed up by Pope Innocent III (1160-1216) when he stated that "the sexual act is so shameful that it is intrinsically evil." Another Christian theologian maintained that the "Holy Ghost is absent from the room shared by a wedded couple." What Philip records in his gospel is that Christ said precisely the opposite: The nuptial chamber is in fact the holy of holies. For Philip the holy trinity includes the feminine presence. God is the Father, the Holy Ghost is the Mother, and Jesus is the Son. Neither man nor woman alone is created in the image of God. It is only in their relationship with one another--the sacred embrace in which they share the divine breath--that they resemble God. The Gospel of Philip is best known for its portrayal of the physical relationship shared by Jesus and his most beloved disciple, Mary of Magdala. Because it ran counter to the direction of the Church, which condemned the "works of the flesh," Philip's gospel was suppressed and lost until rediscovered at Nag Hammadi in 1947. Orthodox theologian Jean-Yves Leloup's translation from the Coptic and his analysis of this gospel are presented here for the first time in English. What emerges from this important source text is a restoration of the sacred initiatic union between the male and female principles that was once at the heart of Christianity's sacred mystery.

This new third edition remains firmly targetted at the undergraduate market, and is comprised of five main sections: Materials Science, Engineering Materials, Forming Processes, Behaviour in Service and Property and Evaluation Tests, resulting in 32 chapters (as compared to 17 in the 2nd edition). The numbers of worked examples have been reduced, due to the publication of John's Work Out: Engineering Materials which is recommended to be used alongside the main text and is comprised mainly of worked examples and problems.

The Rice Diet Solution Kitty Gurkin Rosati 2006-06-06 Can you really lose twenty pounds in a month? Will you really keep it off this time? With *The Rice Diet Solution*, you will! The Rice Diet Program has been helping dieters successfully lose weight since 1939. Now in book form, this world-renowned weight-loss method can help you change the way you eat forever. The Rice Diet Program in Durham, North Carolina, was one of the first medical facilities in America to use diet as the primary way to treat disease. On this high-complex-carb, low-fat, and low-sodium whole-foods diet, "Ricers" lose weight faster, more safely, and more effectively than people on any other diet. Men lose on average twenty-eight to thirty pounds and women on average nineteen to twenty pounds per month! The Rice Diet also detoxes your body, ridding it of excess water weight and toxins from processed foods and the environment. The program's results have been documented by extensive studies and confirmed by thousands of people who report amazing weight loss, as well as immediate improvement in such conditions as heart disease, diabetes, and

hypertension. Here's how it works: The Rice Diet strictly limits salt and sodium-rich ingredients. Salt, like refined sugar, is an appetite stimulant, so when you reduce salt intake, you lose water weight and are less inclined to overeat. The Rice Diet also limits saturated fats and instead relies on carbohydrates (fruits, vegetables, grains, and beans) as the main source of nutrition. The fiber cleanses your system and satisfies you so you feel full quickly. The Rice Diet makes it easy to limit calories; when you're eating foods that truly satisfy your hunger, it's a challenge to eat 1,500 calories per day! To make it easy to follow the program, The Rice Diet Solution includes hundreds of tasty, filling, easy-to-prepare recipes—some from the Rice House kitchen, others inspired by major chefs and adapted to Rice Diet standards.

Jung and the Postmodern Christopher Hauke 2013-10-23 What has Jung to do with the Postmodern? Chris Hauke's lively and provocative book, puts the case that Jung's psychology constitutes a critique of modernity that brings it in line with many aspects of the postmodern critique of contemporary culture. The metaphor he uses is one in which 'we are gazing through a Jungian transparency or filter being held up against the postmodern while, from the other side, we are also able to look through a transparency or filter of the postmodern to gaze at Jung. From either direction there will be a new and surprising vision.' Setting Jung against a range of postmodern thinkers, Hauke recontextualizes Jung's thought as a response to modernity, placing it - sometimes in parallel and sometimes in contrast to - various postmodern discourses. Including chapters on themes such as meaning, knowledge and power, the contribution of architectural criticism to the postmodern debate, Nietzsche's perspective theory of affect and Jung's complex theory, representation and symbolization, constructivism and pluralism, this is a book which will find a ready audience in academy and profession alike.

Spinning Side Kick Anita Lahey 2011 Anita Lahey's second collection, *Spinning Side Kick*, is a hard-knuckled look at the other half. These lively poems mix a girl-about-town cockiness with an all-too-rare emotional honesty about men, love, and relationships. Whether the subject is a one-man chimney demolition, the lifelong fidelity of seahorses, a lover at war in Afghanistan or a kickboxing match, Lahey confronts the enduring disconnect between the sexes in a language that is slangy and quick, punctuated with jabs. She eyes those moments—in a day, in a life—when the normal clues we rely on disappear, shifting the line between domesticity and danger. In *Spinning Side Kick*, a talented poet returns with sharper aim.

And the native youth were corrupted by their presence. To mend their ways, a film censor board was set up, consisting of an actress, a tailor, a religious head, an old and pious shop keeper, a sexually starved male teacher and an ex-principal, who was a confirmed spinster. How they react to the erotic scenes and the subsequent personality changes forms the crux of this novel.
