Excerpt: The Man in the High Castle (1962) is a science fiction alternate history novel by American writer Philip K. Dick. It won a Hugo Award in 1963 and has since been translated into many languages. The story of The Man in the High Castle, about daily life under totalitarian Fascist imperialism, occurs in 1962, fourteen years after the end of a longer Second World War (1939-1948). The victorious Axis Powers - Imperial Japan, Fascist Italy, and Nazi Germany - are conducting intrigues against each other in North America, specifically in the former U.S., which surrendered to them once they had conquered Eurasia and destroyed the populaces of...*

*Mind in Motion Patricia S. Warrick 1987 Discussed here are the eight novels that Patricia Warrick considers representative of Dick's finest writing—the works that will become classics, including The Man in the High Castle and Do Androids Dream of Electric Sheep? Warrick shows that Dick had a remarkable sense of the cultural transformation taking place in the last half of the 20th century. Dick points out the cracks in our institutions, our ideologies, and our value systems that will inevitably lead to their collapse. His moral vision perceived a universe of infinite possibility, with shapes that constantly transformed themselves—a universe in process. And his mind was a mind in motion, constantly questioning, finding answers, rejecting them in order to seek other possibilities. For Dick, having fixed, unchangeable answers was tantamount to entropy and death.*

*With Teeth* Kristen Arnett 2022-05-31 NAMED A BEST BOOK OF THE YEAR BY THE WASHINGTON POST, VOGUE, MARIE CLAIRE, READER'S DIGEST, AND GOOD HOUSEKEEPING "A gripping read...Unabashedly queer, probing and unafraid...Exceedingly engaging." –USA Today "Sublimely weird, fluently paced, brazenly funny and gayer still, and it richly deserves to find readers." –New York Times From the author of the New York Times–bestselling sensation *Mostly Dead Things*: a surprising and moving story of two mothers, one difficult son, and the limitations of marriage, parenthood, and love If she's being honest, Sammie Lucas is scared of her son. Working from home in the close quarters of their Florida house, she lives with one wary eye peeled on Samson, a sullen, unknowable boy who resists her every attempt to bond with him. Uncertain in her own feelings about motherhood, she tries her best—driving, cleaning, cooking, prodding him to finish projects for school—while growing increasingly resentful of Monika, her confident but absent wife. As Samson grows from feral toddler to surly teenager, Sammie's life begins to deteriorate into a mess of unruly behavior, and her struggle to create a picture-perfect queer family unravels. When her son's hostility finally spills over into physical aggression, Sammie must confront her role in the mess—and the possibility that it will never be clean again. Blending the warmth and wit of Arnett's breakout hit, *Mostly Dead Things*, with a candid take on queer family dynamics, *With Teeth* is a thought-provoking portrait of the delicate fabric of family—and the many ways it can be torn apart.

*The Man Whose Teeth Were All Exactly Alike* Philip K. Dick 2010-03-02 *The Man Whose Teeth Were All Exactly Alike* was written by Philip K. Dick in the winter and spring of 1960, in Point Reyes Station, California. In the sequence of Dick's work, *The Man Whose Teeth* was written immediately after *Confessions of a Crap Artist*; the next book Dick wrote was *The Man in the High Castle*, the Hugo Award–winning science fiction novel that ushered in the next stage of Dick's career. This novel, Dick said, is about Leo Runcible, "a brilliant, civic-minded liberal Jew living in a rural WASP town in Marin County, California." Runcible, a real estate agent involved in a local battle with a neighbor, finds what look like Neanderthal bones and dreams of rising real estate prices because of the publicity.
