

GRENADA ENTRY PROTOCOL

LATEST UPDATE: 21 SEPTEMBER 2020

This protocol can be changed at any time due to the uncertainty of the COVID-19 virus pandemic.

PLANNING YOUR TRIP TO GRENADA

1

WHERE IS YOUR TRAVEL ORIGINATING FROM?

A traveller's risk category is determined by the highest risk level associated with any country that they have originated from, travelled to, or transited through within 14 days prior to travel to Grenada.

CARICOM Travel Bubble Country

The CARICOM Bubble includes:
Barbados, Dominica, St. Kitts & Nevis,
St. Lucia, St. Vincent and the
Grenadines.

- No PCR test required
- No quarantine

Low Risk Country

To view the current list of LOW RISK countries [CLICK HERE](#)

- Negative PCR test required within 7 days of travel
- No quarantine

All Other Countries

- Negative PCR test required within 7 days of travel
- Minimum of 4 day reservation at approved accommodation for observation and quarantine
- Visitors on day 4 have the option to get PCR test to be allowed into the community, or remain at the hotel for the duration of their visit
- Residents on day 4 have to get PCR test to be allowed to go home

COMING SOON TO THE APPLE APP STORE.

ON ARRIVAL

All travellers will undergo health screening on arrival (symptom review, temperature checks, and testing if deemed necessary).

You will present your online completed Health Declaration form, the Waiver of Limited Liability Agreement form, copy of your negative PCR test, and the Public Health Locator form to immigration for verification, and other required documents for entry to Grenada.

DURING YOUR STAY

VISITORS

- Guests staying at approved “Pure Safe travel accommodations” hotels and resorts will not normally be tested on arrival. The guests will be transported to the accommodation using approved transportation and can continue their stay within the “Pure Safe Accommodation” without the requirement for further testing. Upon completion of their vacation, the guests will be ferried to the airport using approved transportation to board their flights.
- During their stay, guests who wish to leave the “Pure Safe travel accommodations” and interact with the public, must have a PCR test done on or after the 4th day of their stay, and will be allowed to venture outside of the “Pure Safe Accommodation” if the results are negative (PCR results are usually ready within 1 - 2 working days).

RESIDENTS

Persons will undergo a COVID-19 PCR test on or after day 4 to exit from the Pure Safe travel accommodations (PCR results are usually ready within 1 - 2 working days).

- Persons testing negative will be allowed to exit the accommodation.
- Persons testing positive, will have a repeat COVID-19 PCR test in 5 - 7 days and be released according to their result and the clinical assessment.

NOTE: Persons wishing to home quarantine for the 4 days after arrival, must apply and receive approval from the COVID-19 Committee, 7 days prior to arrival in Grenada.
